Optimising Resources
Ensuring Sustainable Growth
CORPORATE VISION

- To be a major player in the resource-based industries
- To be one of the leading players in the oil palm and tree plantation industries by adopting sustainable resource management practices
- To produce quality and price competitive products
- To be a responsible corporate citizen in support of National Development Objectives

CORPORATE MISSION

- To enhance stakeholder value by producing good quality, price competitive and environmentally friendly products
- To constantly refine our practices as part of our absolute commitment towards sustainability
- To integrate Corporate Social Responsibility into our business practices and culture in partnership with our stakeholders to create shared value
1. COMPLY WITH LAWS & REGULATIONS
   Complying with all applicable local, national, and internationally rectified laws, regulations and policies in relation to forest operations, forest plantations and oil palm plantations.

2. OPERATE IN ONLY LEGALLY ACCORDERD AREAS
   Operating only in areas with legally accorded right of use.

3. NO ILLEGAL LOGGING AND NO PURCHASE OF ILLEGAL TIMBER
   Prohibiting illegal logging in our forest areas and the use of illegal timber as raw materials for our mills.

4. RESPECT THE RIGHTS OF LOCAL COMMUNITIES
   Recognizing and respecting native customary rights, beliefs and culture.

5. UPHOLD WORKERS’ RIGHTS & ENHANCE SKILL DEVELOPMENT
   Recognizing workers’ rights and providing necessary trainings for skill development.

6. ADOPT SUSTAINABLE FOREST MANAGEMENT PRACTICES
   Formulating and implementing forest management plans compatible with the best logging practices for long term sustainable supply of timber.

7. CONDUCT ENVIRONMENTAL & SOCIAL IMPACT ASSESSMENT
   Complying with all environmental safeguard measures set forth in the Social and Environmental Impact Assessment Reports and excluding environmentally sensitive areas from operation.

8. NO CONVERSION OF RAMSAR PEAT FOREST
   Conserving forest areas classified as RAMSAR Wetland Convention and/or identified as HCVFs.

9. CONSERVE HIGH VALUE FOREST
   Identifying and setting aside High Conservation Value Forests (HCVFs).

10. PROMOTE SAFETY & HEALTH
    Promoting safe work practices and healthy work environment.
1. LEGALITY COMPLIANCE
In line with Ta Ann’s Sustainable Management Policy, harvesting in natural forests adheres strictly to all legal and regulatory requirements of the state with legality compliance audits conducted by a 3rd party annually.

2. ZEBRA LOGGING
Reduced Impact Logging (RIL) - A new environmentally friendly harvesting method which minimises ground disturbances with higher harvesting efficiency especially on steep terrains.
Ta Ann takes pride in its forest plantations which provide a renewable and sustainable resource base to meet its processing needs while easing the pressure on natural forests in the long term.

We adopt environmentally friendly approaches in forest plantations by designating and conserving wildlife corridors, buffer zones, sensitive areas and various HCVF areas.

*Indigenous species such as Neolamanchia Cadamba (Kelampayan/Buno/Laran) is also planted using Zebra planting methodology whereby the natural vegetation between planting strips are left undisturbed.*
VALUE-ADDED MANUFACTURING

MANUFACTURER OF LEGAL & SUSTAINABLE WOOD PRODUCTS

(General Plywood, Structural Panels, Concrete Panels, Floor Base, Bracing Panels, Laminated Veneer Lumbers (LVLs), Coated Concrete Panels, Film Faced Panels)

CERTIFICATES ATTAINED:

■ PEFC Chain of Custody Certification
  EWPAA and JIA

■ SAI Global Certification
  Standardsmark (five ticks) program of Australian Standard

■ JAS
  Japanese Agricultural Standard Certification

■ GFS Wood Tracking Program

■ ISO 14001 Certification

■ CE Marking System Certification
